Employment History

Jr. Software Engineer, Cognizant Technology Solutions, Chennai

July 2019 — Present

- Project Client: MetLife, Inc.
- Project Role: Jr. Software Developer
- GSSP Description: GSSP is also known as Global Sales and Servicing Platform, GSSP have Mobile and Web Applications which enables the insured or policyholder to access different features across the application.
- I have worked across multiple Metlife end-user application development and support projects based on Java, groovy languages along with spring boot and Micro service Architecture/framework in backend using NoSQL- Mongo as database and ReactJs in frontend to provide a better user experience allowing myself to seek much more knowledge in the process.
- Worked with a humble attitude and a willingness to learn.
- Responded to problems with excellent troubleshooting abilities.
- Worked with a strong attention to detail and excellent record-keeping abilities.
- Continually worked to enhance my set of communication skills and strategies.

Intern, Cognizant Technology Solutions, Hyderabad

January 2019 — May 2019

I was part of cognizant's Internship program where i have Undergone four month's of training in Core Java and SQL and Developed Customized Web Application based on the project-requirements.
